

## Game Changer 2: Live The Game (Game Action)

# THRIVE! As a Professional Coach Playbook

**“The quest of any persons life is moments when they come alive!” - Christopher Alexander**

### Quick Summary:

To really thrive as a coach in the world in the Post-Industrial Age requires that you become a master at playing life as a game. This will challenge and uplevel the way you see the world. Bringing this “way of seeing and playing” to your own life will make it much easier for you to provide play insights to your players.

When you play with intent... you come alive!

## 1) Play with Intent

To Play With Intent means you step into a situation with the understanding that you can NOT control what is about to happen... BUT you can influence it with your energy, skill, attitude and plan. And knowing that you do not have control you organize the best of who you are and what you CAN do to co-create the results that you desire... your intention.

To play with intent requires creativity and courage! Failure is always an option and this means that your unique contribution can make the difference... or NOT. Most people don't play. They only act in situations where they THINK they have control. To play with intent requires that you see yourself as a co-creator with the world (and people) around you.

**To grow your coaching confidence, you must OWN your ability to PLAY with Intent in your own life.**
