

Golden Ticket 01 – Super Power Session

THRIVE! As a Professional Coach Playbook

Quick Summary:

Super Power Coaching Session

You just won a Super Power Coaching Session with Coach Dave!

Awesome.

Together we will explore the Super Powers that you were born to express, review them through the lens of your back story and make a plan for how you can utilize them to win your coaching business game!

The BIG IDEA

In your Super Power Session we will explore who you were BORN to BE using a tool that I call your Player Card (The originator of the concept called it Human Design). With this tool we will get a look into your pathway to purpose, natural gifts, questions for life, the energies of where you are an influencer and those where you are influenced by those around you. We will see how some of your gifts combine to create Super Power potential. FUN!

We will also explore your backstory to see where you may have learned to suppress, hide or fear your gifts, life questions and Super Powers.

With clarity about WHO you were born to be (your Player Card) we can craft a business game plan that will truly play to your strengths while gaining awareness of where your backstory indicates that you will need to expand your Inner Freedom.

How to prepare for your session...

1) Use this play sheet to create a back story chart. Send this to me in a word document or pdf
