1) Power UP! For Sacred Networking

1A) 5 Shamanic Principles of Sacred Networking

1) Sacred Purpose... Sacred Belonging

When you endeavor to make the world a better place for a community of people then your Purpose is sacred. YOU MUST KNOW THESE SEVEN THINGS...

- 1) YOUR purpose BELONGS to the community... Not to YOU as an individual
- 2) The Universe and your community will support you fully
- 3) The Universe and your community will challenge you often
- 4) You are a worthy steward of this purpose for your community
- 5) The Universe and your community are counting on you to fulfill this purpose
- 6) You are allowed to prosper as the steward of this purpose
- 7) Be generous

2) .Your Sacred Needs

When your purpose is Sacred, then everything you need to fulfill that purpose is available to you.

You must be clear about what you need.

You may not know everything you need right now, but ALL that you will need to fulfill your purpose will become clear to you over time.

Examples:

- *Customers, Potential Customers*
- *People to refer and recommend you to influential people, communities or media*
- *A compelling reason to buy your products/programs*
- *Organizations to integrate your "thing" into something BIG that is already happening.*
- *Team members with specific skills*
- *Partners with complementary products / programs*
- *Partners to supply essential components*
- *Partners to mentor, coach, teach and guide you*
- *Partners to provide money and resources*
- *Partners to provide feedback and ideas*
- *Partners to make your life better so that you can fulfill your purpose in the world*

3) Your Sacred Circles

Everything you need will come to you through other people. So... you MUST ASK other people for what you need. Our relationships are in concentric circles organized in powers of 7.

Sacred Networking Play Sheet

Your 1st Circle (7 people)

This is your Inner Circle. Everyone in your 1st Circle is in your life to support you in some way to fulfill your purpose in the world. And you are in their circle to support their purpose in the world.

Share your purpose; Know their purpose.

Important: Everyone in Your 1st Sacred Circle must support your Sacred Purpose completely with no unspoken reservations. Keep sharing to make sure everything that needs to be spoken and heard is spoken and heard.

Nurture your 1st circle by actively supporting them.

Your 2nd Sacred Circle (49 people)

Your 2nd Circle is made up of people you know on a "First Name basis" and you could connect with them at any time.

Your 2nd Sacred Circle contains access to everything and everyone that you will need to fulfill your purpose.

Each person in your 2nd circle is most likely in your life to support your current purpose NOW, but some may be connected to your past or future purpose.

- Connect with everyone in your 2nd circle on a regular basis and ask them for what you need, ask them what they need and find connections between you and them.
- Always be open to people you meet jumping into your 2nd circle. If you feel resonance of purpose, invite them in.
- Always be open to people leaving your 2nd circle into your 3rd circle if you feel no resonance of purpose.

Nurture your 2nd circle by staying connected and finding mutually beneficial endeavors.

Your 3rd Sacred Circle (343 people)

Your 3rd Sacred Circle contains people that are connected to you through communities past, present and future. They may or may not be connected to your Sacred Purpose, but it's always best to act as if they are.

Nurture your 3rd Circle with authentic sharing.

4) Your Sacred NOW

Everything that you need is available to you NOW.

- Any person in your 1st or 2nd circle could provide access to what you need NOW.
- ASK NOW. Avoid thoughts like: "They didn't support me last time so why should I ask this time?" Their lives have changed since the last time you asked. (Even if it was only a short time ago)
- Trust your intuition (not your fears) about what to ask for from whom and when.

5) Your Sacred Gratitude

The flow of gratitude is the fuel that powers Sacred Networking!

Whenever you receive a gift from the Universe through someone in your Sacred Circles...

- Find a creative way to say thank you AND
- Find a way to pay it forward
- When you receive a “No, I can’t help you NOW”, be grateful for your connection to the person and find out what they need.

1B) Clarify what you need NOW

Identify 5 “things” you need NOW and write them in the boxes on the top of page 6.

Be creative and expansive in thinking about what you REALLY need.

Use the list on Page 2 for ideas

Be as specific as you can at this moment. You can add clarity as you discover it.

Writing it down activates your energy

1C) Identify the people in your 1st and 2nd Sacred Circles

Identify the 7 people in your 1st Sacred Circle. Write their names on the grid on Page 6

Identify at least 20 people in your 2nd Sacred Circle. Write their names on the chart on Page 6

Writing their names down on paper creates a visual display and activates your energy to connect with them.

Find the Fun!

Sacred Networking is like a Treasure Hunt!- A treasure hunt may be one of the most fun and exhilarating activities ever invented! Know that everything you need is available to you. Keep looking! Enjoy the adventure.

The Pursuit of “NEEDS” requires the skills of Engagement and Creativity – Being clear about what you need and know that asking for it requires engagement and creativity. These are the two most important skills to master in the 21st Century. They are a LOT of fun but... they require energy and persistence! And you have to be willing to NOT be so masterful in the beginning!

Transformations from worker to player

Industrial Work Mindset (the old way)...	Spirit of Play Mindset (the new way)...
Complete your tasks and you will complete your project.	You never know where you will find what you need A Sacred .Networking treasure hunt is full of mystery and unknowns. You KNOW that what you need is out there, but you don't know where you will find it.
Avoid failure at all costs by NEVER doing anything where failure is possible	Failure is part of every Treasure Hunt On a great treasure hunt you spend a LOT more time NOT finding what you are looking for than you do FINDING it. So it is important to learn something from every step of the adventure.
