How to use Facebook Amplify

The main action in the CoachVille Game is sharing about what you are learning and what you are doing in your real life! Whenever you share something, you have the opportunity to “amplify” what you are sharing onto your Facebook feed using a special button in the game platform.

Sharing on Facebook is great for many reasons... especially when you share a big insight or personal breakthrough OR a BIG WIN with someone you coached or engaged with as part of the program.

When you transfer your share onto FB it creates a link to the CoachVille website. And it includes your member code in the link so that it can track your Partner Points in the game.

This is what it looks like on the Gamecard...
