

Reclaim Your Lost Business Superpowers: 1-1 Coaching Experience

Program Description

Business is easy: Be Yourself, Build Relationships and Add Value. You were born to contribute to life in a BIG way! You were given a truly unique collection of super powers, a relationship strategy and a pathway to fulfill your purpose.

The challenge is: no one gave you a manual explaining what your powers are or how to use them in the best way... **until NOW! After this session, many confusing experiences from your life and business will suddenly make sense.**

When you play the business game the way YOU were designed to play it, the success you yearn for will be SOOO much easier to attain AND more importantly sustain! You still have to get up and play your game every day, but you will play with a LOT more clarity and capability and a lot less struggle and doubt. Your energy will be focused on what you do best and being the leader you were BORN to be.

Reclaim Your Lost Business Superpowers: 1-1 Coaching Experience

As the CEO of CoachVille, I have amazing clients all over the world. In addition to my passion for coaching, I am an athlete, vocal performer, and an avid student of business growth and personal transformation; and I love when these paths intersect.

YOU

You have a business to grow - or a mission to fulfill within your organization.

You want to make the world a better place AND live an amazing life while doing it.

INDUSTRIAL MINDSET

Most of your troubles - long hours, a seemingly endless to-do list, and some frustration “putting out fires” with your people - are caused by the Management Science principles of

COMMAND – CONTROL – COMPLIANCE

No matter how hard you try they still dominate the way you think and lead; because you were trained to think this way every day in school, on teams and in jobs.

They cause a lot of suffering in your business/life.

To fulfill your purpose, you need to master:

COACH APPROACH LEADERSHIP

You can transform your place of work into a winnable game worth playing:

CONNECT - CO-CREATE - CONTRIBUTE!
