

# Coach Mission 2b: Coach Your Players

## Basic Coaching Playbook

**“Coaching Axiom #1:  
To be a great coach, you need great players.”  
- Coach Dave**

### Quick Summary:

**BIG Idea:** Coach Mission 2 continues with your 5 players. AND any extra sessions that you need to do to reach 15 sessions total on the next game card. Stay available and connected to your players! The game is probably starting to get more challenging.

### Your mission continues!

Your mission continues as you keep coaching your 5 players using the RACE Model and Coaching Super Powers once per week for 3 more weeks.

Now that you are getting into the flow of the RACE Model and you can go deeper into the conversations.

Stay alert to wanting to fix things for your players or just tell them what to do.

Of course you can offer suggestions but always WITH permission space AND finding a way to tailor what you are sharing to their current awareness and ability.

Both you and your player will be getting more fluent in game language now which can accelerate the game and the results.

This is also a good time to re-assess the game objectives. Is it possible the game has become too easy? Or is it possible that the desired results were too aggressive? Make adjustments so that your player feels energized by the game every day.
