

Start Here – Power Up Pursuit of Greatness Game

Quick Overview of the CV Game Platform

Game Changer: The Pursuit of Greatness game has several ideas that can be real game changers in your life! The first is to Play Your Day by connecting and sharing rather than just working alone. This is a theme of every CV program and what the CV Game Platform is all about.

Quick Outline

1. How to play
2. How to ROCK the REAL Game Card Lifestyle

1) How to Play

	A POWER UP is something that prepares you to do something in the game better. In this game you play by reading the book and/or listen to audio and SHARING your insights. This helps me make the “living book” even better. So you Power Up both of us!
	A GAME ACTION is when you do something in the world and SHARE about what happened. In this game you play by using the conversation guides to engage in provocative conversations with people who are close to you and SHARING about what happened.
	A BIG WIN is when you get a desired result in the world by taking action. In this game you play by SHARING about anything that happens AFTER you have the provocative conversation using a conversation guide. Did your conversation spark a deeper connection?
	BONUS PLAY: each time you share something in the game you have the opportunity to win a BONUS PLAY item that you can do for extra points. These game items have a separate folder on the game card. When you win one, you must click the “commit” button or it will disappear from your game card in 24 hours; so look out for them as you play.
	You Inspire Me: As you read what your teammates in the game have shared, you have the option to give them a You Inspire Me (YIM) point. Only do this if they really inspire you! When you start the game you get a small “bank account” of YIM’s to give. As you play, you can win more. When you give a YIM, you also earn a point in the game!
	Comment: Use this button to comment on something that someone shared in the game. You can offer encouragement or an insight or even ask them a question about what they shared.
	Highlight: When you share something in the game you have the option to make it a Highlight Reel item. When you do this, what you shared will appear on the big CoachVille highlight board. When you make a highlight, you have the opportunity to win bonus points in the game.
	Coaches Challenge! The game is played using the honor system game. But if the coach of the game sees that you shared something like “XYZ” into the share box, then they can issue a challenge and take away your points for that item.
	Upload: When you see this icon you can upload a picture to enhance what you have shared.
	“Messages”: Each time you share or comment (Or give a YIM) in the game, you have the opportunity to win a clue to help you solve the puzzle. The clues are called “Messages”, they appear in a separate area on your game card.

2) How to ROCK the Game Card Lifestyle: for first time players

The Game Card is what makes participating in programs at CV unique from any other learning place in the world!!! It is what makes our environment a “Community of Mastery”. YES, we love this!

Playing the game card will accelerate your path to mastery by 100 Times!

Here is what you can do:

1) At the start of the day

Go to your Gamecard!

Go to the **POWER UP** section of the game card to find the new audio to listen to and share your thoughts. You can listen to it on the Gamecard, or download and listen to it later.

Note: most of the time the Gamecard audio will match the CoachVille Podcast audio, so you can listen to it in either place.

Go to the **GAME ACTION** section of the game card to find the new Conversation Guide for the day.

2) Go out in the world and play!

Play Your Day; engage in provocative conversations using the Conversation Guide. Do awesome things, take actions and create results; or NOT.

3) At some point every day, visit your game card again:
