

# SUPERPOWER SCHOOL

**YOU! Unleashed.** Powered by **CoachVille™**

## Share Your Birth Date Details

**Remember I told you about our belief in the “Intelligent Universe”...**

We will be using and learning profound wisdom from 3 of the ancient “Mystery Schools”. One thing that mystics figured out was that the position of the planets in our Solar System relative to the position of the Earth had an impact on human behavior. Using a solar map and the I-Ching wheel we will use the positions of the Sun, Moon and Planets at the time of your birth to discover the Superpower Energies that you were born to express.

After you share your birth details we will do a quick calculation (using software of course) Then we will reply to your Gamecard item #4 and share with you which of the energies that you predicted show up in the Energies that you were born to express.

In the Superpower School Level 1 program you will discover a lot more about the Energies that you were born to express!

### **1. About your birth information**

To calculate your chart we need to know the birth Day, Month, Year, Time and Location (nearest major city, state/province, country)

### **2. Do your best to find your birth “Time”**

If you know it to the closest 15 minute interval that is close enough. The next best thing is the nearest hour. If you don't know the time at all, you can check a box to let us know. We won't be able to do a complete calculation but it will be enough to get us started.

### **3. Use this link to access the form**

## [The Birth Information Form](#)

Again, be assured that this information is private and wont be share with anyone for any reason.

# On the Gamecard

A **POWER UP** is an activity where you listen to an audio, read something or do an exercise and then share your insights.

## Share your birth information

Read the playsheet and use the private form to share your birth information.
